

Freight Broker Agent Program

Would you fly in a plane with someone who's never been a pilot? Then why would you be an agent for someone who's never been an agent?

One of the first things you will notice is we are not your typical freight broker. Our approach is quite different than every other brokerage program out there: treat the agents' right, pay them what they deserve and provide them with cutting edge technology allowing them to move more freight with less effort and do so more profitably. It's really quite simple.

Working with the team at ARI Logistics is often a fresh, new experience for most agents. They are not use to our responsiveness, flexibility and the "Do it now" mentality. Our focus is to do whatever it takes to satisfy our customer, you the agent.

Our management team is made up of former successful agents so they'll treat you like you deserve. Like a *CUSTOMER*. Not like a number, friend or even family. As our *customer*, your success is our success. ARI takes a vested interest in helping you grow *YOUR* business. Providing you with the back office support, tools and stability you've always wanted. You'll be hard pressed to find another company that is responsive as we are to our agent's needs.
